

Nicole Harty, MPH

Public Health Data Specialist

nicole.m.harty@gmail.com | [Portfolio](#) | Steamboat Springs, CO

Summary

- Skilled in data visualization, data storytelling, stakeholder engagement and group facilitation
- Highly adept at uncovering hidden dependencies and consequences in complex systems
- Simultaneously understands details necessary to implement projects and see big picture strategy

Experience

NHSN Data Unit Manager | Colorado Department of Public Health and Environment

March 2026 – Present

- Within first 90 days, transformed a 200-page manual report writing process into a modularized, programmatically-written report resulting in 20% error reduction and 75% timeline reduction
- Supervise 3-person unit of epidemiologists and analysts who coordinate health care facility reporting of HAIs to NHSN, analyze NHSN data, and provide oversight for data management, analysis, and presentation of NHSN and other HAI/AR Program data

Interim Resource Support Program Manager September 2022 – June 2025

- Develop and refine 12+ policies and 15+ procedures for Resource Support Unit to ensure consistency in program operations throughout the lifecycle of contracts monitored under \$22M grant program

- Provide direct supervision to 5 staff to ensure team is appropriately staffed, qualified and competent
- Create and maintain dashboard of 12+ funding portfolio KPIs using R, flexdashboard, and Shiny

Independent Consultant | Nicole Harty Consulting, LLC

April 2016 - Present

- Design, implement, analyze, and report qualitative and quantitative assessment projects for local government and non-profit clients
- Provide ongoing technical assistance for implementation and sustainability of data collection protocols
- Design grant-funded programs, develop evaluation plans, and write grant applications

Consultant & Collaborator | WE Public Health

July 2022 - Present

- Write RFP responses and proposals (7+) to obtain contract work supporting public health projects
- Serve as project manager for multidisciplinary project teams of 3-5 independent consultants

Epidemiologist/Data Manager | Routt County Public Health

September 2020 - May 2022

- Built, maintained, and updated COVID-19 data systems and reporting dashboard using SQL, Google Suite, R, Shiny, and GitHub to present decision-makers and community members with actionable information
- Led and managed 10 person case investigation and contact tracing team to conduct disease and outbreak investigations in timely, efficient manner meeting requirements of CDC and CDPHE funding
- Created new data systems to ensure data quality, epidemiologic surveillance, and program evaluation

Program Evaluator | WellPower

October 2018 - January 2021

- Built automated, reproducible evaluation reports using RMarkdown to save up to 50% time
- Collaborated with business intelligence and application developers to create and implement automated data collection and data management protocols
- Wrote sustainability plan and created process maps highlighting barriers and facilitators to quality service delivery to enhance financial sustainability of grant-funded transition-age youth mental health and well-being program

Skills

- **Programming Languages:** R, SQL
- **Tools & Frameworks:** Git, Quarto, Google Data Studio, Tableau
- **Data Skills:** descriptive statistics, survey analysis, pivot tables, data visualization
